Copenhagen, December 4th, 2014

To whom it may concern,

Letter of recommendation for ISIC Denmark

Through 15 member unions Danske Studerendes Fællesråd - the National Union of Students in Denmark (DSF) represents approx. 160,000 Danish students at institutions of higher educations. The member unions are independent student councils and student organisations at the respective institutions. All students can participate in student politics, either in a local member union of DSF and/or in one of DSF's campaigns, committees or governing bodies.

Since 1932 DSF has worked to ensure the best education and living conditions for students in Denmark. DSF is not being subject to any partisan political interests.

DSF recognises and supports ISIC Denmark (International Study Identity Card) and the work they do for students in Denmark and internationally. The ISIC card gives students access to more than 125.000 discounts worldwide - making it more affordable to be a student.

Yours sincerely,

Ole Buch Rahbek
Secretary General
